

Swimsol

Job Description:
Storage Coordinator

2022 Swimsol Maldives Pvt. Ltd.

H. Azum, 3rd Floor, Ameene Magu, Male'
Tel. +960 9990850 – jobs@swimsol.com

What we do

Swimsol developed the world's first floating solar system for a marine environment. It provides solar energy for tropical island states like the Maldives where onshore space is scarce. The energy produced by Swimsol is non-polluting and, moreover, cheaper than the diesel generators commonly used on those islands.

Your Responsibilities

- Keep inventory accurate, structured, and up to date
- Monitor stock levels and coordinate reorders of parts and materials
- Manage storage data and workflows in our ERP system
- Ensure tools and spare parts are available for daily operations and repairs
- Maintain an organized and well-structured storage environment
- Solve day-to-day challenges with a practical, hands-on approach
- Coordinate closely with our logistics team in Europe
- Great communication skills; respectful treatment of colleagues and clients

Your Profile

- Good command of English (spoken and written)
- Confident in working with ERP systems and digital tools
- Experience in inventory or storage management is an advantage
- Familiarity with technical equipment, spare parts, and materials is a plus
- Structured, reliable, and solution-oriented way of working
- Strong organizational skills and ability to maintain oversight
- Proactive and hands-on mentality

Application Requirements

- Up-to-date CV in English
- Clear copy of National ID card
- Educational Certificates
- Police clearance
- Recent passport size photo (.jpg)
